

MASUMPATEL

Computer Science Engineering Student | Full-Stack & AI Enthusiast
masumpatel.8181@gmail.com | +91-9931928181 | Vaishali, Bihar, India | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

Dedicated Computer Science Engineering student at Government Engineering College, Vaishali, with a passion for continuous learning, problem-solving, and innovation. Hands-on experience across full-stack web development, AI-driven applications, and IoT systems, with a proven track record in national-level hackathons including Smart India Hackathon 2024, IIT Bombay Eureka 2024, and Microsoft Kshitij (IIT Kharagpur). Eager to explore emerging technologies and contribute to impactful, real-world projects.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, JavaScript

Web Development: HTML, CSS, React.js, REST APIs, Node.js, PHP

Databases: MySQL

Tools & Platforms: GitHub, VS Code, LeetCode, GeeksforGeeks

Soft Skills: Problem-Solving, Critical Thinking, Team Collaboration, Leadership, Adaptability

PROJECTS

Automated Student Attendance Monitoring & Analytics System | *QR Codes, Biometrics, Facial Recognition, Data Analytics* | *Hackathon Proposal*

- Proposed a system using QR codes, biometrics, and facial recognition to eliminate manual roll calls, ensuring error-free, transparent, and tamper-proof attendance records.
- Designed for real-time student tracking, automated parent alerts, and paperless operations, making the solution scalable and sustainable for institutions.

NariSuraksha AI — Women Safety System | *Python, AI/ML*

- Building an AI-based women safety application focused on real-time alerting and location-aware protection features to enhance personal safety.

Opportunity Finder Web Application | *React.js, Tailwind CSS, JavaScript, Vite* | *Personal Project*

- Built a responsive web app to search recent job and internship opportunities, using modular, reusable React components with a card-based UI for role, company, and application details.
- Implemented a filter/search system and mobile-first responsive design, applying modern UI/UX principles for spacing, typography, and accessibility across devices.

Profdesk — AI Faculty Appraisal System | *React, Node.js, MySQL* | *Smart India Hackathon 2024*

- Developed an AI-powered faculty appraisal and performance tracking system that automated data collection and analysis through intelligent web scraping, with role-based dashboards for faculty and administrators to monitor performance metrics and generate data-driven insights..

Student Management System | *Python, HTML, CSS*

- Developed a student management system applying arrays, lists, and file handling for data storage, with a user-friendly HTML/CSS interface and optimized data retrieval.

EXPERIENCE

Software Development Intern — Cisco

Jun 2023 – Jul 2023

- Completed a software internship gaining hands-on exposure to development workflows and industry best practices.

Offline Internship Program — I-HUB, IIT Roorkee

2023

- Attended a structured innovation and technology internship program hosted by IIT Roorkee.

EDUCATION

B.Tech — Computer Science & Engineering, Government Engineering College, Vaishali (BEU)

2023 – 2027

CGPA: 7.76 (2nd Year)

Intermediate (Science), Samastipur Women's College, Samastipur

2021 – 2023

Percentage: 84%

Matriculation, High School, Rajapakar

2020 – 2021

Percentage: 87.03%

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Place — Eureka 2024, Asia's Largest Business Model Competition (IIT Bombay) | Top 5 — SIH 2024 (College Round)
- Google Cybersecurity Certificate — Jan 2024 | Python for Data Science — Cisco
- Full-Stack Web Development — ATPLC | Participated — Kshitij Hackathon by Microsoft, IIT Kharagpur
- Winner — Srijan Project Exhibition 2023, GEC Vaishali
