

VIVEK KUMAR

AI/ML Engineer | Computer Science Engineering Student
vivekchaubey2211@gmail.com | +91-9905662436 | Bihar, India | [LinkedIn](#) | [GitHub](#)

PROFILE SUMMARY

AI/ML-focused Computer Science Engineering student (4th year, Bihar Engineering University) with hands-on experience building and deploying machine learning and deep learning applications, including a CNN-based image classifier and an NLP-based spam classifier. Proven track record in national-level hackathons — Smart India Hackathon 2024, IIT Bombay Eureka 2024, and Microsoft Kshitij (IIT Kharagpur). Experienced across the ML pipeline: data preprocessing, model building with Scikit-learn, and deployment as live Streamlit applications, complemented by full-stack web development and IoT skills.

TECHNICAL SKILLS

AI / Machine Learning: Python, Scikit-learn, Pandas, NumPy, CNN (Deep Learning), NLP Feature Extraction, Jupyter Notebook, Streamlit
Programming Languages: Python, C, C++, JavaScript
Web Development: HTML, CSS, React.js, REST APIs
IoT & Embedded Systems: Arduino, ESP8266, Raspberry Pi, Ultrasonic Sensors, MQTT
Databases & Tools: MySQL, GitHub, VS Code
Soft Skills: Problem-Solving, Critical Thinking, Team Leadership, Adaptability

PROJECTS (AI / ML FOCUS)

- Plant Disease Detection System** | *Python, CNN, Streamlit, Deep Learning*
- Built a deep learning CNN model that classifies leaf images as healthy or diseased with real-time predictions; currently extending it to recommend treatment for detected diseases.
- AI Movie Recommendation System** | *Python, Machine Learning, Streamlit*
- Designed and deployed a content-based recommendation engine using ML similarity algorithms and content-filtering techniques on movie feature data.
 - Built a responsive Streamlit interface for personalized, real-time movie suggestions based on user interests.
- Email Spam Detection** | *Python, Scikit-learn, NLP, Jupyter Notebook*
- Developed an ML classifier using NLP-based feature extraction to identify spam emails with high accuracy.
- Profdesk — AI Faculty Appraisal System** | *React.js, Python, Web Scraping, AI | Smart India Hackathon 2024*
- Automated faculty performance tracking using AI-driven data scraping with role-based dashboards for administrators and faculty.

OTHER PROJECTS

- MARVI — Smart Home Automation** | *Arduino, ESP8266, Raspberry Pi, IoT*
- Built an IoT home automation system with voice control and real-time device monitoring, supporting both HTTP and MQTT protocols.
- Smart Shopping Assistant Robot** | *Python, IoT, Ultrasonic Sensors*
- Developed an autonomous shopping robot using ultrasonic sensors for obstacle detection and navigation.

EXPERIENCE

- Frontend Developer Intern — Infyni** 2023 (1 month)
- Built responsive UI components for client projects using HTML, CSS, JavaScript, and React.js.
 - Improved interface design and optimized frontend performance for better user experience.
- Python & Data Science Training — RCPL & Cisco** 2023
- Completed industry training covering Python, data analysis, and data science fundamentals.
 - Worked on data handling, visualization, and problem-solving techniques using Python.
- Secretary, Technical & Innovation Club — GEC Vaishali** 2026 – Present
- Organized technical events, workshops, and innovation-based activities for students.
 - Led team coordination and managed club operations for smooth event execution.
 - Developed leadership, communication, and management skills through club activities.

EDUCATION

- B.Tech — Computer Science & Engineering, Government Engineering College, Vaishali (BEU)** 2023 – 2027
CGPA: 7.75 | Currently in 4th Year
- Intermediate (Science), M.P.S Science College, Muzaffarpur** 2020 – 2022
Percentage: 78.2%

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Place — Eureka 2024, Asia's Largest Business Model Competition (IIT Bombay)
- Rank 5 — Kshitij Hackathon by Microsoft, IIT Kharagpur
- Google Cybersecurity Certificate — Jan 2024
- Winner — College Internal Hackathon 2023, GEC Vaishali
- Winner — Srijan Project Exhibition, GEC Vaishali
